REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Instant claims 1-35 and 37-61 are allowable, since the prior art of record does not teach or suggest in general a liquid aqueous machine dishwasher product comprising 20-60% by weight of a phosphate, 0.1-70% by weight of a copolymer containing one or more unsaturated carboxylic acid monomers, and one or more sulfonic acid monomers, and 5-30% by weight of one or more nonionic surfactants, wherein the pH of a 1% strength by weight solution of the composition in distilled water is between 7 and 11, as required by applicant in the instant invention. Furthermore, the examiner acknowledges that applicant has filed a Terminal Disclaimer over copending Application No. 10/752,947.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
